

Pyrasied's Versato Myst, a range of pastel-tinted acrylic-resin sheets, provided students of the Royal Academy of Art, The Hague, with a material for the Frame Store, a feature of Dutch Design Week 2017. The sheets absorbed and diffused light, appearing as almost intangible volumes of colour inside Eindhoven's Klokgebouw.

Glowing Metals – a varied range of metal laminates from Chemetal – offers 36 'warm' designs whose textured patterns and embossed surfaces bestow an intriguing sense of intensity on interiors and alter the appearance of space.

Manufacturers apply 3D effects to flat surfaces

Turin-based studio Marcante-Testa ventured into porcelain tiles with Confetti. Designed for Ceramica Vogue, their quartet of cheerful graphic options gives restaurants and hotels a domestic atmosphere.
