## 1. Advance Tabco's Modular Bar Die System

Advance Tabco's new Prestige line of modular bar die ships with the underbar equipment pre-attached, allowing for flush mounting to the die wall. The die wall comes pre-drilled for drain conduit, plumbing lines, soda/beer lines and electrical conduit. Cantilever bases on the bar equipment eliminate legs and allow for easy cleaning. Removable millwork panels allow for easier access to utilities.

## 2. ATI Decorative Laminates' Artful Metals

Artful Metals is the newest collection of metal- and patina-inspired finish options available on various ATI Fusion substrates, including their newest textured substrate, Pebble Aluminum. The collection includes 15 options, such as Funky Cold Patina (pictured). These finishes range from bright colorful patinas to rich oxidized coppers to and

rare and artistic modern-treated metals available in 4-foot-by-8-foot sheets. [www.atilaminates.com](http://www.atilaminates.com)

## 3. Chemetal's Glowing Metals Collection

The Glowing Metals collection adds 36 new metal designs to Chemetal's product line. The line includes new classic metals, printed metals, aged metals, patinas and embossed designs in a variety of sizes. New additions to the classic metals line include polished and brushed bronzes, antiqued copper and rose gold. The new collection is made in the U.S., contributes to LEED points with up to 75 percent recycled content, and is available in 4-foot-by-8-foot and 4-foot-by-10-foot sheets as well as custom sizes. ## 4. Corian Prefabricated Tabletops

Created for foodservice and hospitality applications, Corian's prefabricated tabletops are nonpo-

rous and stain-resistant. They are available in 9 of the most commonly specified sizes — in squares, rectangles and rounds — and in 15 color options. [www.coriandesign.com](http://www.coriandesign.com)

## 5. Crossville, Inc.'s Satori Collection from Laminam

The Satori porcelain tile panel collection is offered in three color options — black, brown and beige — with an unpolished finish. These porcelain tile panels come in 1 by 3 meters and 1 meter square sizes. At only 5.6 millimeters thick, they are appropriate for installation on floors, walls, countertops and more, per the manufacturer. [www.crossvilleinc.com](http://www.crossvilleinc.com)

## 6. DriTac's 8301/8302 Underlayment

Dritac's new line of eco-friendly, acoustical abatement, lightweight flooring underlayments for
