

FOCUS:

GLOBAL SHOP PREVIEW

Shop! members offer many ways to help you give shoppers in-store experiences that are accessible, expeditious, and memorable. To help you make the most of your time on the show floor, here is a sneak peek of what member companies will be highlighting in their booths. Note your must-sees and map out a plan that allows time for additional discoveries along the way.

STORE FIXTURING SHOW

ATI Decorative Laminates

4750 atilaminates.com

ATI Decorative Laminates' Fusion product line now offers the Artful Metals Collection: 15 unique metal wall panel designs ranging from bright colorful patinas and rich oxidized coppers to rare and artistic, modern-treated metals. Artful Metals are available on a variety of ATI's 4-ft.-by-8-ft., easy-to-install, unbacked metal substrates with no counterbalancing required. Special orders for 4-ft.-by-10-ft. size have minimum order requirements.

Visual Citi

4016 visualciti.com

Suspended mannequin platforms fabricated with ¾-in.-thick MDF. Can be produced in various finishes and hung at different heights to highlight product.

KC Store Fixtures

4623 kc-store-fixtures.com

Industrial meets artistry in this all-purpose unit. Rectangular tubing and HPL granite shelves forge a solid and beautiful merchandising tower whose form and function integrate into a variety of settings. Four shelves taper in depth, from top to bottom, and feature curved front and back edges to enhance the progressive design and echo the fixture's curved legs. Sign hooks at the top are optional and shelf finishes are available in hundreds of colors and designs. Overall dimensions are 30-in. width by 78-in. height by 32-in. diameter.

ATI DECORATIVE LAMINATES

Retail Logistics Canada

4643 retaillogistics.ca

Canada's leader in cross-border and intra-Canadian retail transportation. Store fixtures, white-glove, dedicated project management, installations, rollouts, warehousing, and distribution.

Chemetal

5229 chemetal.com

Chemetal's new Glowing Metals collection showcases beautiful and innovative metal designs and laminates. From warmer, richer metals to textured patterns and patinas, these 36 new designs are Chemetal's largest new

product introduction ever. Shown here are beautiful, mirror-like anodized aluminum Triangles and Domes patterns. Available in Clear, Brass, and Bronze. 4-ft.-by-8-ft. sheet size.

Stylmark

5020 stylmark.com

Flexis DisplayMaker is the new wall merchandising system from Stylmark. At the core of Flexis is a low voltage powered standard system which enables users to flexibly create a variety of merchandising solutions. This can be achieved by adding Stylmark lit shelves, lit mirrors, light boxes, showcases, monitors, or just about anything requiring a 24-volt input voltage.

Lozier

4411 lozier.com

Lozier's Mobile Table-Tower provides merchandising flexibility to support changing display needs for any product category. Elevate a brand, feature seasonal merchandise, or emphasize impulse product. Lozier builds flexibility and functionality into each and every fixture. Select from a wide offering of finishes and materials to make its designs your own.

DSA Phototech

5005 lightboxes.com

DSA Phototech's best-selling Backlit LED Frameless Fabric Light Box is now available in an angled design for even greater display versatility. With a 90° right angle, the Angled Fabric Light Box extends your visual around a column or corner. The virtually frameless light box has a slender 1/8-in. facing edge for maximum graphic display. Backlit LED strip lighting provides bright and even illumination throughout. Available in sizes up to 72-in.-by-120-in. with a 3 7/8-in. depth. UL-listed, made in the USA, two-year warranty.
