treefrog®

Treefrog is turning 20. To celebrate, we're introducing new designs and a more flexible, color matched backer.

Treefrog is still the same great prefinished real wood veneer designers have specified for 20 years. Our new color matched wood backer makes it even better. For starters, it eliminates the brown laminate edge. The new backer is lighter, more flexible and runs cross grain to the veneer face, making it stable too.

We've added 11 new prefinished veneers, including 7 designer veneers. FSC® certified, Treefrog is made in Italy and stocked in USA. We back it all up with a sales, customer service and nationwide distributor team who all care about getting it right. Learn more at treefrogveneer.com.

E•Frog Edgebanding: Treefrog offers 15/16" prefinished edgebanding rolls on a color matched ABS plastic backer for our most popular veneers.

***Topcoat / Finish Descriptions:** All Treefrog veneers are prefinished with a polyurethane topcoat. These options best bring out the beauty of each veneer.

Touch (New): More natural. Low sheen, matte.

Wax Effect: A long-standing favorite, Smooth and low sheen.

Groove: Refined, textured finish.

Semi-Gloss: Like the name says. Only offered on #40404.

Thickness: Prefinished: .039"

Weight: 4' x 8': 4.6 LBS. 4' x 10': 5.7 LBS

Treefrog's new, more flexible color matched backer.
